25X1

KVP shipments  
1954 included: 

between 7 and 12 February

25X1

Date in February	Number and Type of Cars	Load	From	To
7	undetermined	about 100 KVPs	Baerenstein)	Schoenefeld
9	"	"	Schoenefeld)	Baerenstein
12	5 flatcars		Greifswald district	Schoeneicher plan
	2 "		Rhinow	"

25X1

1.  Comment. Personnel shipments between Berlin-Schoenefeld and Baerenstein had previously been indicated, with the first shipment from Schoenefeld to Baerenstein having been observed on 23 January 1954.  Observations in the Baerenstein area confirm that the installations in Mittenwalde and Niederschlag are occupied by KVP. It is believed that 14-day ski courses for selected KVP personnel are held in the Baerenstein-Oberwiesenthal area.

25X1

2.  Comment. Probably supply shipments. A central KVP supply depot was located in the installation at Schoeneicher Plan, south of Mittenwalde. The trains probably carried packing material, which had been dispatched to Mittenwalde from the divisions in Frenzlau or Eggesin and Schwerin, the latter via Rhinow.
